Unanimous Proclamation For Peace and Prosperity From the *Mandala Society*

The Mandala Society that Launched the Holistic Health Movement in America introduced the word "Holistic" and launched the broad practice of Holistic Body Mind Spirit medicine. The Holistic concept is now not just accepted, but embraced by society as a new paradigm.

**Is Holistic thinking an answer to what must be
the most urgent pragmatic awareness of our time?**

"We are drifting towards a catastrophe beyond conception. A substantial new manner of thinking is required if humankind is to survive." - Einstein

OUR Mandala Society is dedicated to empowering each person to the maximum by supporting each person having their own personal religion. Religion that must be personal is our individual foundation to having maximum benefit from our unavoidable connection to Source that is the Force:

The Supreme Creative Life Force of All Creation

We will find that O.U.R. legacy is the Dr. Robert Muller Legacy that is the Divine Legacy of all of Humanity becoming Humankind. This is our time. We are deciding if we leave available sustainable prosperity for all or end a livable world.

This Proclamation is our Decree for total devotion to creating O.U.R. pragmatic foundation to our essence-required legacy from our divine selves that are unavoidably connected to the supreme intelligence of our Creator. Thus O.U.R. Holistic Renaissance that is not an organization. This is O.U.R. Movement

We will see that our Robert Muller Legacy of a divine world that works for all can be O.U.R. legacy if we communicate it before we lose it.

Therefore, we envision creating O.U.R. pragmatic Sanctuary in Costa Rica to communicate and demonstrate Robert Muller's Legacy. This can also provide O.U.R. evolving Essence Space site on the internet, and an Ecologically, Sociologically Sustainable Village demonstration.

*We are proving that the most fun fulfilling profitable thing
we can be doing is creating a world that works for all.*

Demonstrating O.U.R. Robert Muller Legacy is:
